The German organizing team is delighted to invite you to the 77th Annual Meeting of the EAAP in September 2026. This unique international scientific conference will take place in the city of Hamburg. Under the general theme "**Shaping resilient livestock systems is key to circular agriculture**", we will discuss innovative approaches and solutions for sustainable and resilient livestock systems. Leading scientists from a wide range of disciplines, not only from Europe but from all over the world, will come together at the congress to exchange ideas, present their latest research findings in 12 study commissions and satellite symposia, and establish new contacts in science and industry. Worldwide, there is hardly any other conference in this field that offers such scientific exchange and this outstanding platform.

The German Society for Animal Production (DGfZ) represents Germany in the EAAP and, together with the Federal Ministry of Food, Agriculture and Rural Affairs (BMELH), is organizing the international congress, which will be held in Germany for the first time since 1991. We hope to welcome 1,600 to 2,000 participants from over 60 nations to Hamburg, around 85% of whom will be from Europe. Hamburg – the "Pearl of the North" – offers an inspiring setting for the conference with its unique blend of historic architecture and modern flair.

That is why we are offering you the opportunity to present your company in a variety of ways at this international congress: through your participation and by presenting your projects in lectures or posters.

Above all, however, this is a unique opportunity to showcase your company as a sponsor of the congress of Europe's largest community of livestock scientists. At the same time, it is a great opportunity for companies that are or wish to become internationally active to build and maintain their network. The available sponsorship opportunities offer you a range of possibilities to improve your visibility and your connection with the organizers and the EAAP.

We would be happy to discuss with you all the possibilities for integrating your brands or messages with various aspects of the conference.

Thank you for your trust and support!

**Dr. Christian Lambertz**

Chairman of the German organizing committee

**Hans-Willi Warden**

President of the German Society for Animal Production (DGfZ)

# YOUNG EAAP

Young EAAP is a group of young scientists organized under the EAAP umbrella. It aims to create a platform where scientists during their early career get the opportunity to meet and share their experiences, expectations and aspirations. This is done through activities at the Annual EAAP Meetings and social media. The large constituency and diversity of the EAAP member countries, commissions and delegates create a very important platform to stay up-to-date, close the gap between our training and the future employer expectations, while fine-tuning our skills and providing young scientists applied and industry-relevant research ideas.

## Young EAAP Board:

- Ines Adriaens  
President
- Jana Obsteter  
Vice President
- Giulia Gislon  
Secretary

## YOUNG EAAP PROMOTES YOUNG AND EARLY CAREER SCIENTISTS TO:

- Stay up-to-date (i.e. EAAP activities, social media)
- Close the gap between our training and the future employer expectations
- Fine-tune our skills through EAAP meetings, expand the special young scientists' sessions, and/or start online webinars/trainings with industry and academic leaders
- Meet to network and share our graduate school or early employment experiences
- Develop research ideas, projects and proposals

More information

## WHO CAN BE A MEMBER OF YOUNG EAAP?

- All individual members of EAAP can join the YoungEAAP if they are under 38 years.
- You can become a member of this network by sending the membership form available at [www.eaap.org/young-club](http://www.eaap.org/young-club)

Terms and Conditions

EAAP started in 2023 a new initiative to create closer connections between European livestock industries and the animal science network. Therefore, the “EAAP Industry Club” was shaped with the specific aim of bringing together the important industries of the livestock sector with our European Federation of Animal Sciences. All companies dealing with animal production (nutrition, genetic, applied technologies, etc.) are invited to join the “EAAP Industry Club” because industries will have opportunity to increase their visibility, to be actively involved in European animal science activities, and to receive news and services necessary to industries. In addition, through the Club, industries will enlarge their scientific network and will receive specific discounts on sponsoring activities.

For more information, please contact [eaap@eaap.org](mailto:eaap@eaap.org).
